Etienne Marais

Hele gruppen samlet foran Spitzkoppe.

Dette ble en tur med mye Afrika. Øde områder med liten befolkning, mye urørt natur, store nasjonalparker, men også konfliktområder der naturen og befolkningsvekst står mot hverandre.

Vi holdt oss i områdene sentralt (vest) og nordøst i Namibia. Vi besøkte Namib ørkenen med sine enorme sanddyner, områdets høyeste fjelltopper i Erongo fjellene, Caprivi Strip med frodig subtropisk skog og Okavango og Zambezi elvene som allerede hadde god vannføring på grunn av regntiden i Angola. Vi besøkte de mest kjente parkene slik som Namib-Neukluft NP, Brandberg NR, Etosha NP, Mahango/Bwabwata NP, og med utflukt over grensen to dager til Botswana og Okavango. Vi besøkte også Atlanterhavskysten med de fuglerike områdene rundt Walvis Bay og Swakopmund. Vi avsluttet turen ved Victoria Falls og elvecruise på Zambezi, i Zambia – og til slutt selve fossen i Zimbabwe.

Kjørelengdene ble som planlagt og var overkommelige, 2-3 timer hver dag går i gjen-nomsnitt til transport. Veiene holdt som forventet en høy standard.

Hvor var vi egentlig?

Vi landet i hovedstaden Windhoek sentralt i landet, og bevegde oss rett vestover mot Atlanterhavet (Walvis Bay) via Erongo fjellene og Spitzkoppe. Deretter kjørte vi helt ned til kysten, Walvis Bay og Swakopmund, før det bærer nordover til landets høyeste fjell, Brandberg.

Deretter dro vi videre mot nordøst, til Etosha NP, der vi brukte tre dager på safari langs vannhullene sør for den enorme saltsletten. Deretter ble det i hovedsak en ren transportetappe østover via Rundu og til Caprivi Strip. Etter ørken, fjell og savanne, kom nå turen til skog, nesten regnskog og våtmarksystemet Okavango.

Til sist kjørte vi ut av Namibia og over Zambezi ved Katima Mulilo, og til Livingstone i Zambia (ut av kartet til høgre langs Zambesi floden) for å se Victoria fallene. Vi møtte nå regntiden, men slapp unna med tordenskrall, og siden det hadde regnet en måned i nord, var det godt med vann i Zambezi-floden og Viktoriafossen. Et spesielt sted å avslutte turen.

Kartet på denne linken viser stedene Shakawe i Botswana og Livingstone i Zambia og Victoria Falls i Zimbabwe, der vi fly fra tilbake til Windhoek: <http://g.co/maps/hdrsk>

Reisen dag for dag

Dag 1: Fra Windhoek til Omaruru

Vi landet tidlig på morgenen i Windhoek, etter en direkte flytur fra Frankfurt, og stoppet rett etter flyplassen ved Avis Dam. Der kom første innrykket av mange nye arter for mange av deltakerene, og vi fikk faktisk et par turarter her, den sydligste lokasjonen på hele turen.

Videre kjørte vi nordover mot Omaruru etter en kort stopp i Windhoek sentrum. Underveis ble det tid til å se på en Ovambopapegøye, før vi kom frem til Omaruru, en liten landsby rett sør for Erongo fjellene. Vi rakk en lang kveldstur i området (byen), inklusive en tur nedover nok et (av mange) bredt tørt elveleie. Vi overnattet på Omaruru Guest House.

Ovambopapaegøye, Khan River, Omaruru.

Foto: Laura Petersen

Dag 2: Erongo fjellene

Grytidlig tok de som ønsket det en morgentur opp i de nærliggende Erongo fjellene. Vi ankom i grålysningen og fikk en trolsk opplevelse da natt ble til dag her ute i «ørkenen». Og stadig nye arter dukket opp, og for første gang fikk se klippehopperen, en karakterart for

Hoenstein Lodge, med Erongo-fjellene i bakgrunnen

Foto: Knut Arne Nygård

området. Etter frokost på hotellet, kjørte vi opp igjen samme vei, før vi kjørte inn i Erongo reservatet og til et lunsj sted knyttet til San-kultur (urbefolkning). Her gikk vi også en liten tur i området, det var lett å kjenne at hele området er villmark. Folk, dyrket mark og fe er ikke å se noe sted!

Utpå dagen ankommer vi Hoenstein Lodge. Et aldeles nydelig sted på vestsiden av Erongo fjellene. Her satt vi på terrassen med en kald en, og nøyt synet av småfuglene på foringsplasser og vannbad. Noen tok en kveldstur, og vi så tydelige tegn på at ville dyr levde i området. Et favorittsted for mange tror jeg sett hele turen under ett!

Dag 3: Spitzkoppe til Walvis Bay

Vi kunne se Spitzkoppe fra lang avstand. En enorm sandstein som står rett opp av slette-landet/ørkenen rundt (såkalt «dry savanna»). Her kikket vi en del etter hereroskvett, men den fikk vi ikke se, men mange andre arter og flotte opplevelser rundt lunsjstedet vårt rett under hovedklippen. Etter lunsj starter vi på turen ut til Skeleton Coast. Ikke vanskelig å forstå navnet – vi kjører nå gjennom Namib ørkenen, og det må ha vært den sikre død å lande her som skipbrudden!

Hvitvingesteinskvett, med ring! Spitzkoppe.

Foto: Knut Arne Nygård

Utpå ettermiddagen kjører vi sørover langs kysten ned til Walvis Bay, en tidligere Sør-Afrikansk koloni/enklave. Hele byen er en fiskerby, som fortsatt lever av de store fis-ke-mengdene i den kalde havstrømmen utenfor.

Vi overnattet i byen.

Dag 4: Walvis Bay til Brandberg

Dagen startet med å kjøre rundt ute i lagunene sør for Walvis Bay, enorme store arealer med enorme mengder sjøfugl. Et viktig overvintringssted også for flere av våre egne

Flamingo og dvergflamingo, fra lagunene sør for Walvis Bay.

Foto: Knut Arne Nygård

vadefugler!

Etter dette kjørte vi nordover igjen. Vi stoppet ved de enorme sanddynene store deler av Namib-ørkenen består av. Vi vandret opp på toppene og skled rundt i sanden. Andre stod nede ved veien og så ut over Sør-atlanteren etter sjøfugl. Og alle fikk se den lille søte damaraternen! Vi fikk en kort stopp i den hel-tyske byen Swakopmund, før vårt siste stopp ved havet. Denne tok vi ved store salt-sjøer like nord for byen, og gir oss en ny dose med sjøfugl.

Så kjørte vi innover i ørkenen igjen, en ganske lang transportetappe nordøstover, der vi får sett enkelte lokale stammer viser seg frem langs veien. Etter å ha kjørt «rundt» Brand-berg, og hatt en lett punktering, ankom vi White Lady Lodge på nordsiden av fjellmassivet (gammel vulkan-kjerne). Igjen et nydelig sted, med ekte ørken-elefanter vandrere rundt i området.

Dag 5: Brandberg til Etosha National Park

Denne dagen startet vi også med en tidlig tur, nå langs den uttørkede Uib elven, med rik vegetasjon som var veldig herjet av elefantene. Vi vandrer fritt i området, etter prinsippet om at en gruppe mennesker skremmer bort alle ville dyr! Fugler er det som vanlig masse av, og selv om ikke selve overnattingsrommene var helt topp, var stedet virkelig minneverdig!

Så startet vi på en av våre to lange transport-etapper, med en lunsjstopp i Khorixas der vi koste oss ved en slags «dyrehage». Videre østover til Outjo, og så nordover mot Etosha, der vi stopper rett utenfor parken, på Etosha Safari Camp.

Sølvpannesteintrost, Khorixas.

Foto: Knut Arne Nygård

Tørre savanner i Etosha NP.

Foto: Laura Petersen

Dag 6: Etosha nasjonalpark

Det var med store forventninger vi kjørte inn i Etosha nasjonalpark. Dette er en av de store parkene i Afrika, dominert av en enorm saltslette som er tydelig fra romstasjonen! Det er mange typer habitater i parken, men denne parken domineres av 40 varmegrader og total ørken mellom vannhullene på denne årstiden. Vi starter med en tur nordover til et vannhull i kanten av saltsletten, som tiltrekker seg alle slag savanne dyr og masse struts..

Løver ved vannhull, rett utenfor Okaukuejo leir, Etosha NP.

Foto: Knut Arne Nygård

Solnedgang over vannhullet i Okaukuejo leir, Etosha NP.

Foto: Knut Arne Nygård

Så kjører vi sørover til mer buskete og steinete terreng, og stadig nye opplevelser står for tur. Det eneste er at store savannedyr er det få av – det er for tørt – og de har vandret nordover for å møte regnet. Som vi kan høre/føle selv, det går tydelige tordenstormer i nord, kommer regntiden litt for brått på oss?

Okaukuejo Camp er en stor leir i Etosha. Vi hadde bestilt overnatting nær det berømte vannhullet, der det også er nattlys – noe som virkelig gjorde kvelden spennende. Vanligvis er safari i Afrika rett og slett slutt ved solnedgang i seks-syv tiden, men her ble vi sittende til midnatt og se på ugler, sandhøner, løver, elefanter og neshorn. Uforglemmelig.

Dag 7: Etosha nasjonalpark (Okaukuejo til Namutoni Camp)

Denne dagen kjørte vi østover i Etosha hele dagen, med lunsj i Halali Camp med tilhørende ugle-observasjoner! Videre østover ble det stadig grønnere, og når vi kom til Namutoni Camp fikk vi se rennende vann! Namutoni er et gammelt tysk fort, dette var ytterste utpost i gamle Tysk Sørvest-Afrika.

Her var det også vannhull, og riksesniper som tuslet rundt i det åpne inne i leiren. Vi brukte litt tid ved vannhullene, men dette var en liten nedtur i forhold til Okaukuejo, trolig mer vann i området?

Akasieugle, Halali leir, Etosha NP. Foto: Laura Petersen

Dag 8: Namutoni til Rundu

Etter en morgentur inne i nasjonalparken ble det på ny å sette seg i bilen, nå til andre transportetappe, nordøstover til Rundu. Lunsj tilbrakte vi utenfor Grootfontein, i en liten park/hage kalt Roy's Place, her ble det tatt mange fine fuglebilder ved vannpostene!

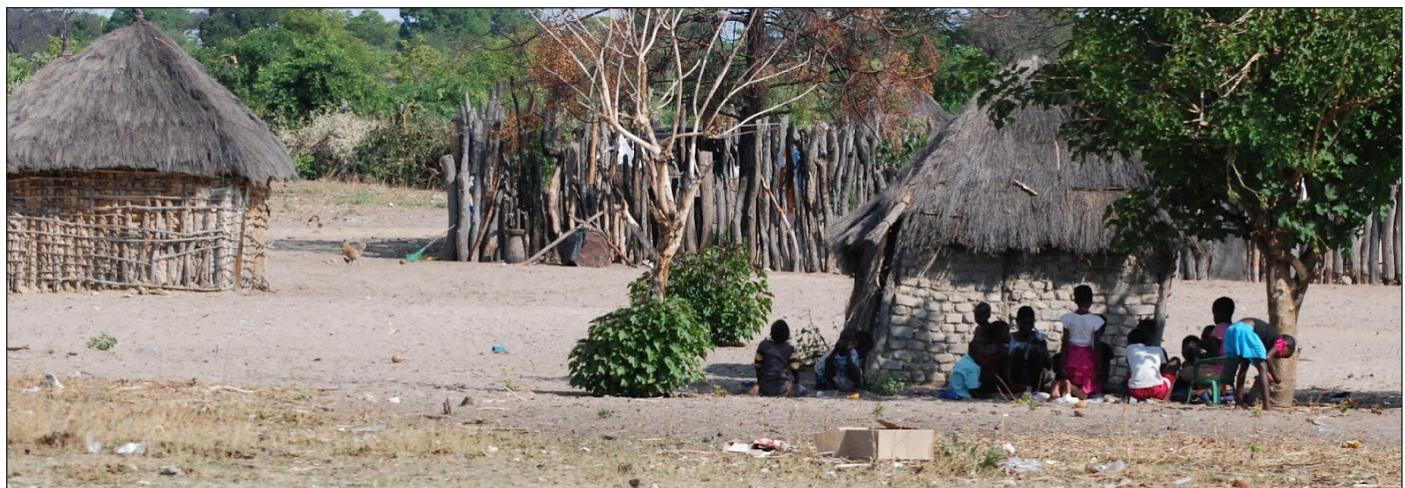

Namaquasandhøne, Etosha NP, Namibia

Foto: Knut Arne Nygård

I løpet av denne dagen beveger vi oss inn i klassisk «woodland» slik det er i et bredt belte nordover til regnskogene i Kongo. Dette ga helt nye arter. Vi hadde to stopp langs veien og tuslet ut i skogen for å se etter sjeldenheterne (for Namibia).

Etter Rundo kjørte vi ned til Okavango elven, og legger oss til på et nydelig sted med utsikt over elven og over til Angola, og overnatningsstedet heter nKwazi Lodge. Det blir kveldstur i området, inklusive i sivet som utgjør den tørre delen av elveleiet, som stiger for hver dag nå som regntiden pågår nord for oss.

Ved Rundu møtte vi kultur og landbruk, og terrenget ble grønnere.

Foto: Laura Petersen

Dag 9: Rundu to Shakawe (Botswana)

Neste morgen startet med en flott tur over grønne "jorder" i området som vi etterhvert forstår at faktisk star under vann når elven sitt høyeste om noen måneder. Deretter setter vi oss i bilen og kjører videre østover, med stopp i skoglandskap og kryssing av spennende arter som vi kun kan få her. Etter Divundu, kjører vi sørøver langs Okavango og kommer til Popa Falls, der elven går i strie strømmer ikke ulikt en norsk elv. Så kommer vi inn i Mahango Viltreservat, et lite spennende område helt vest på Caprivi Strip.

Sabelantelope, Mahango GR.

Foto: Laura Petersen

Vi tar lunsj ved Okavango elven inne i viltreservatet, og får en rekke nye våtmarks-arter. Så kjører vi ned til grensen til Botswana, og videre inn i Okavango «panhandle» - øverste del av Okavango deltaet. Her er elven allerede splittet opp i flere løp, og vi ankommer Lowdon's Lodge utpå ettermiddagen. Her bor vi på et flott anlegg, med en bratt kant langt ned til elven, og likevel hus på påler. Denne elven er nok høy i slutten av regntiden!

Dag 10: Full dag i Shakawe (Okavango Delta)

Shakawe er en liten by øverst i Okavango "Panhandle" – altså "håndtaket" til det store deltaet lenger sør. Vi lå på en flott plass en del sør for denne lille byen som området er oppkalt etter. Vi bruker hele dagen i området – i hovedsak på to lange båtturer på elven/i deltaet.

Morgenturen gikk oppover elven, vi er fordelt på to båter og får sett masse våtmarksfugler, men også arter vi virkelig kikket etter, som flodfiskeugle og afrikasaksenebb med flere. Etter lunsj og litt fritid ble det tur sørøver på elva, og der var det fortsatt noen få sandbanker som ikke stod under vann. Med masse afrikasaksenebbunger. Spennende observasjoner! Vi

koser oss virkelig her ved og på elven, og mange tusler rundt litt på ledig tid og knipser fine og spennende fuglebilder! Vi avslutter dagen med en liten felles tur i området, og alle får i alle fall høre nariniatrogonen, lett å se var den ikke!

Afrikabladhøne, Okavango Delta.

Foto: Wenche Helene H. Nygård

Dag 11: Shakawe og Caprivi Strip

Så dro vi fra Okavango og hadde nok en langtur foran oss, denne gangen gjennom hele "Caprivi Strip", den tynne streken på kartet over østover til Zambezi elven. Hele området er en ny nasjonalpark, Bwabwata, og varselskilt om elefanter, apekatter og antiloper avløser hverandre i timevis.

Lunsj tok vi langs veien, og nå er det virkelig varmt, sterk sol og høy luftfuktighet! Vi merker på været at regnet kan nærme seg. Lunsjstedet er der veien krysser Kwando elven, men ikke lett å se mye i den varmen vi opplevde her.

Utpå ettermiddagen kommer vi frem til den legendariske Zambezi floden! Denne elven er også relativt lav, men med økende vannstand for hver dag. Store områder med gress og siv er utmerket for å se etter fugler.

Vi overnatter her på Kalizo Fishing Lodge, kanskje det enkleste stedet vi overnattet, og stedet ble valgt ikke minst fordi vi var tett på en gigantisk koloni med karminbietere! Og så var det utrolig mange arter solfugler her! På andre siden av elven har vi Zambia, der lokalbefolkningen bruker elven til vask og bading, mellom krokodiller og flodhestar...

Svovelbuskvarsler, Okavango Delta.

Foto: Laura Petersen

Dag 12: Kalizo til Livingstone (Zambia)

Vi startet dagen med å gå en tur i området, på bredden av den både berømte og impone-rende Zambezi floden. Noen tar seg turen opp til karminbieter kolonien med over 5000 knall karmin-røde fugler, andre konsentrerer seg om alle artene med solfugler i trærne rundt hyttene våre.

Så satte vi oss i bilene igjen, og kjører opp til grensebyen Katima Mulilo, med en bru over til Zambesi til Zambia. Vi fikk anledning til å gå en liten tur ut på broen over Zambezi. Så er det tre timers kjøring gjennom syd-Zambia frem til Livingstone, og til et fint overnattings-sted på bredden av Zambezi rett ovenfor Victoria fossen. Hotellet het Zambezi Waterfront Lod-ge.

Så gikk vi på en av turens høydepunkt, et sundowner cruise på Zambezi floden, fra hotellet og oppover. Med mengder av våtmarksfugler slik som i Okavango, men nå også hele fem gode observasjoner av afrikasvømmerikse og en utrolig stemning!

Smekkepalmeskvett, en nordlig art som møtte oss ved Livingstone.

Foto: Laura Petersen

Dag 13: Victoria Falls og tilbake til Windhoek.

Noen morgenfugler rakk en kort tur i området rundt hotellet, før turleder fremskyndet avgangen. Etter en kort frokost kjørte vi ned til den berømte bruken mellom Zambia og Zimbabwe like nedenfor Victoriafallene. Vi kjører sakte over (en minibuss av gangen på broen), og kommer til en småkaotisk grensekontroll i Victoria Falls. Endelig gjennom skal vi være skikkelig turister!

Victoria Falls, Zimbabwe.

Foto: Knut Arne Nygård

Besøket til Victoria Falls ble preget av at regntiden innhentet oss, så sammen med alt van-net fra fossene ble dette en fuktig opplevelse. Men for et sted (for en foss)!. Så ble det ut til flyplassen og fly tilbake til Windhoek. Noen hektiske dager med ni passkontroller hadde gått bra – alle var vel tilbake i Namibia! Vi overnattet på et hotell inne i byen (Protea Hotel Thuringerhof), før vi neste morgen dro ut igjen til flyplassen og reiste hjem!

- 1 Skifersanger *Sylvia layardi* (Layard's Warbler)
- 8 Trostefluesnapper *Bradornis infuscatus* (Chat Flycatcher)
- 5 Karooskvett *Cercomela schlegelii* (Karoo Chat)
- 6 Hvitvingestekvett *Oenanthe monticola* (Mountain Wheatear)
- 30 Blekvingestær *Onychognathus nabouroup* (Pale-winged Starling)
- 5 Kaffersolfugl *Cinnyris fuscus* (Dusky Sunbird)
- 2 Langnebbiplerke *Anthus similis* (Long-billed Pipit)
- 10 Skjeggvever *Sporopipes squamifrons* (Scaly Weaver)
- 50 Hvitbrynvever *Plocepasser mahali* (White-browed Sparrow-Weaver)

Walvis Bay area Antall arter: 42 - 13/11*lagoon, saltworks, estuary*

- Reg. Niland *Alopochen aegyptiaca* (Egyptian Goose)
- 100 Kappand *Anas capensis* (Cape Teal)
- 2 Brillefrankolin *Francolinus adspersus* (Red-billed Francolin)
- 2 Svarthalsdykker *Podiceps nigricollis* (Eared Grebe)
- 10000 Flamingo *Phoenicopterus roseus* (Greater Flamingo)
- 200 Dvergflamingo *Phoenicopterus minor* (Lesser Flamingo)
- 5 Storskav *Phalacrocorax carbo* (Great Cormorant)
- 100 Kappskav *Phalacrocorax capensis* (Cape Cormorant)
- 3 Kronskav *Phalacrocorax coronatus* (Crowned Cormorant)
- Reg. Hvitpelikan *Pelecanus onocrotalus* (Great White Pelican)
- 1 Gråhegre *Ardea cinerea* (Gray Heron)
- 1 Silkehegre *Egretta garzetta* (Little Egret)
- 600 Stylteløper *Himantopus himantopus* (Black-winged Stilt)
- 200 Avosett *Recurvirostra avosetta* (Pied Avocet)
- 8 Tundralo *Pluvialis squatarola* (Black-bellied Plover)
- 25 Sandlo *Charadrius hiaticula* (Common Ringed Plover)
- 10 Strandlo *Charadrius marginatus* (White-fronted Plover)
- 200 Saltsjølo *Charadrius pallidus* (Chestnut-banded Plover)
- 30 Gluttsnipe *Tringa nebularia* (Common Greenshank)
- 50 Damnsnipe *Tringa stagnatilis* (Marsh Sandpiper)
- 50 Småspove *Numenius phaeopus* (Whimbrel)
- 40 Lappspove *Limosa lapponica* (Bar-tailed Godwit)
- 12 Steinvender *Arenaria interpres* (Ruddy Turnstone)
- 6 Brushane *Calidris pugnax* (Ruff)
- 1200 Tundrasnipe *Calidris ferruginea* (Curlew Sandpiper)
- 100 Sandløper *Calidris alba* (Sanderling)
- 50 Dvergsnipe *Calidris minuta* (Little Stint)
- 20 Svømmesnipe *Phalaropus lobatus* (Red-necked Phalarope)
- 1 Polarjo *Stercorarius pomarinus* (Pomarine Jaeger)
- 1 Tyvjo *Stercorarius parasiticus* (Parasitic Jaeger)
- 9 Gråhodemåke *Chroicocephalus cirrocephalus* (Gray-hooded Gull)
- 200 Namibmåke *Chroicocephalus hartlaubii* (Hartlaub's Gull)
- 50 Taremåke *Larus dominicanus* (Kelp Gull)
- 10 Benguelaterne *Sternula balaenarum* (Damara Tern)
- 1 Rovterne *Hydroprogne caspia* (Caspian Tern)
- 1000 Makrellterne *Sterna hirundo* (Common Tern)
- 100 Hinduterne *Thalasseus bergii* (Great Crested Tern)
- 30 Splitterne *Thalasseus sandvicensis* (Sandwich Tern)
- 2 Spragledue *Columba guinea* (Speckled Pigeon)
- 1 Småseiler *Apus affinis* (Little Swift)
- 1 Askeerle *Motacilla capensis* (Cape Wagtail)
- 1 Gråspurv *Passer domesticus* (House Sparrow)

Vierkantklip Antall arter: 13 - 14/11*S Swakopmund*

- 1 Kittlitzlo *Charadrius pecuarius* (Kittlitz's Plover)
- 6 Sandlo *Charadrius hiaticula* (Common Ringed Plover)
- 1 Strandlo *Charadrius marginatus* (White-fronted Plover)
- 2 Småspove *Numenius phaeopus* (Whimbrel)
- 30 Steinvender *Arenaria interpres* (Ruddy Turnstone)
