KEY FACTS

OPTICAL BRILLIANCE FOR RAZOR-SHARP IMAGES

CL Pocket binoculars offer unique optical quality of the highest order in the compact range. The high-precision optics guarantee that you can observe wildlife in a relaxed manner, without your eyes getting tired, while ensuring that you can still see every last detail. When folded up, the CL Pocket is very compact, but when you open it up you have a binocular that delivers uncompromising quality. It has a large field of vision and is 100% suitable for eyeglass wearers. With outstanding edge-to-edge sharpness and high transmission, you are guaranteed high-contrast, sharp, color-true images for unforgettable viewing experiences.

HANDY, LIGHTWEIGHT, AND ELEGANT

Absolute viewing comfort is guaranteed thanks to its intelligent, ergonomic design and easy-grip protective housing. Weighing in at just 350 g (12.3 oz) and at 110 mm (4.3 in) long, it slips easily into a small bag, making it the perfect companion. Its modern design in two colorways, green and anthracite, can be combined with different accessory sets to suit your particular needs.

DURABLE AND RUGGED, BUILT TO LAST FOR GENERATIONS

The CL Pocket is made for the outdoors - its rugged design with improved double bridge and sturdy aluminum housing protect the finely adjusted optics, while the inert gas filling prevents water and dust from entering the binoculars - for a long life and resource-saving sustainability.

SUPPLIED WITH

The CL Pocket is available in 8x25 or 10x25 magnification. It is supplied with a field bag, carrying strap, microfiber cloth, and eyepiece cover. Based on customer feedback, this has been designed especially for the new CL Pocket and guarantees excellent observation experiences, even in wet weather. You have the choice of two colors, green and anthracite, and two accessory sets, which can be combined to suit your needs:
